5, PORTE DU MIROIR

Dear Madame Artell

I send you the letter of the visiting nurse who knows very well the Himmer girls. I hope you shall be able to read it in french. -

The girls wrote to you in answer of your first letter. I am surprised you never did receive their letter. -

They are nice girls, but not very strong because life is dear and difficult now in France. We have very little bread and meat and the children are not

enough nourished.
I hope your parcels will
arrive because they need
them.

I thank you very much
for your kindness for our
children.

Very sincerely

Mr. Taper
